

Epson TM-L90-i Series

DATASHEET

Print labels the easy way with the Epson TM-L90-i from Epson's TM-Intelligent family. With its unique built-in intelligence, called ePOS Print, and an integrated web server, the TM-L90-i allows you print directly from devices running popular web browsers – no drivers needed.

This gives you huge flexibility, as you can use the TM-L90-i with virtually any device and operating system. And as the TM-L90-i can control other Epson printers, it will enable you to add driverless printing capabilities to your existing printers.

The TM-L90-i simplifies servicing and maintenance and reduces your costs. It can be configured directly from web applications and, as it doesn't need a permanent connection to a PC or server, you need fewer pieces of equipment, cutting your energy bills and environmental impact.
