## ROLINE 19 Inch Wall Housing Pro 16 U 600x450 WxD black

The wall-mounted enclosures in the ROLINE Pro series have been specially designed for flexible network cabling. Each enclosure has a slide-on cable inlet in the roof with a foam rubber seal. The rear panel and the base plate are equipped with punched cable inlets and plastic covers. The roof chassis has a punched-out area to accommodate a fan module. Inside, a pair of galvanised profile rails with height units of 483 mm (19") are installed, which are also adjustable in depth. The robust steel constructions of the cabinets are made of up to 1.5 mm thick sheet steel and are available powder-coated in grey (RAL 7035) or black (RAL 9005). The side panels and front door are modular, lockable and removable, which improves accessibility. Wall mounting is carried out in two simple steps: Firstly, the rear panel is screwed to the wall and then connected to the housing. Optional levelling feet or castors can be used to make the enclosures free-standing.

### Technical specifications

Manufacturer	ROLINE
Product group	19"- / 10" technology
Product type	19"-wall housing
Colour	black

Scope of delivery	19-inch wall-mounted housing Pro 16 U, earthing cable set, installation set (screws, cage nuts, washers), 2x spanners, assembly instructions
